Re: Easement Grant for Vacation of Mercer Avenue

Dear Mr. & Mrs. Longworth:

We were contacted by the City Engineering Office regarding the necessity of an easement for the purposes of a future water main in Mercer Avenue which has been requested be vacated by you and others in the immediate area.

It is anticipated that a six inch water main will be required in Mercer Avenue to connect the mains presently in Farwood Avenue to the main in Ventura Lane in order to have better fire protection and flow characteristics in this area. We are not at the present prepared to make the construction, however we desire to retain the rights of installation in this street area to be constructed in the future.

In view of these circumstances we have prepared the enclosed Grant of Easement document which we request you sign, have your signatures notarized and return to this office. Upon receipt of this executed document we will be happy to notify the City Engineering Office that vacation of the street will be of no problem to us and the vacation procedures will then commence. A copy is also attached for your reference should you desire it for your files.

If you should have any questions regarding this matter please feel free to contact us.

Cordially yours,

D. L. Foland, P.E.
Chief Water Engineer
